Parents' and Carers' Guide to School Reports

December 2018 onwards

(Please read carefully and keep for reference.)

Important changes to your child's reports:

Reports are no longer going to contain a calculated decimal number relating to overall attitudinal performance. We are putting greater emphasis on attitudinal grade context and description so that parents and carers can gain a true reflection of the strengths and areas for improvement of their child(ren).

The attitudinal grades have been recalibrated and will run from A-E with fuller descriptors available in the reports than before.

Noadswood Expectations:

The criteria for meeting our expectations for being **Ready, Respectful and Safe** are what we hope every child will aim for or surpass - **we believe all our pupils have this potential!**

How will reports now be communicated to you?

Reports will now be communicated to parents and carers **electronically**. When school reports are released you will find them by logging into the school VLE, FROG using your username and password: frog.noadswood.hants.sch.uk

You will be able to download or print your child's report for safekeeping. Electronic reporting will positively impact on our significant printing and paper costs as well as reducing our ecological footprint. We can also be sure that parents and carers will be able to access the reports without having to rely on student mail or the need to hunt through school bags!

If you do not have an email address or access to the internet, please contact us to arrange for a paper copy to be made available

Report based Rewards:

Report data will still be used to inform invitations to celebration events and reward visits and will remain one of the indicators considered when determining eligibility to become a prefect.

Pupils' access to school user area from home:

Should pupils need to access their school user area from home or want to use software they do not have at home, virtual school PCs can be accessed by downloading the application Citrix receiver (details and instructions can be found

[Accessing the Parental Dashboard in FROG](#)

All parents/carers with parental responsibility, and who have provided an email contact, can access FROG. From the home page of the school website, click on the small frog icon at the top right hand side of the page. From here, follow the instructions for registering. Please note: access can only be given where your details match the email account that you provided on the contact information form. To alter or add an email address you may have to visit the school in person with a form of identification.

Reports will only be visible on the Parent Dashboard. You will be able to download or print reports for your children.

In the future an archive of reports will be available on the same web page.

Top Tip

Please visit your Parent Dashboard in FROG today. If you have difficulties logging in using your email address please contact the address below so that you can access reports when they are released:

froghelp@noadswood.hants.sch.uk

FROG can be accessed from a mobile device, tablet or computer
