North Road, Dibden Purlieu,
Southampton, Hampshire, SO45 4ZF

Dear Parents / Carers,

As a brief update to the national Coronavirus situation, we would like to ensure a few bits of key information are passed. Firstly, if there is any reason to suspect your son/daughter has Coronavirus, or is showing the symptoms associated with Coronavirus, please call 111 for further advice.

Secondly, if a case of Coronavirus is confirmed with your son/daughter or any immediate family member they have been in contact with, please email us straight away at health@noadswood.hants.sch.uk. This email will be constantly monitored and allow us to then speak to Public Health England in a timely fashion to seek their guidance. We remain in regular contact with Public Health England and are following all of their advice.

Their website also has the up-to-date advice including the basic precautions we can all be taking:
<https://www.gov.uk/government/topical-events/coronavirus-covid-19-uk-government-response>

We are ensuring that the key NHS messages, including hand washing and covering your mouth when coughing and sneezing, are being passed to our students as well as making sure we are well stocked with soaps and dispensers. We have also been speaking to our subject leads about contingency plans to ensure we are as well prepared as possible should any situations develop.

We will of course keep you updated should any information change.

Kind regards,

David Crowley

Assistant Headteacher

Noadswood School
