Introduction

Noadswood recognises that the early years of teaching are not only very demanding but also of critical significance in the professional development of new teachers. It is vital new teachers get a good start to their teaching careers through appropriate transitional support. Our school's induction programme is aimed at ensuring a smooth transition from training into the teaching profession through appropriate guidance, support and challenge. Our NQT Induction programme will enable our NQTs to establish a secure foundation upon which a successful teaching career can be built.

This policy must be read in conjunction with the statutory guidance on Induction for Newly Qualified Teachers.

1 Induction programme

Our school's NQT induction programme has been designed to meet statutory requirements and make a significant contribution to both the professional and personal development of NQTs, providing support which should enable them to develop competence in the Teachers' Standards and make a valuable contribution to our school. Specifically, we will:

- Register with an Appropriate Body in a timely manner and will work with them to provide high quality support to our NQTs;
- Provide support to meet the generic needs of all NQTs and the specific needs of individual NQTs;
- Provide individualised support through high quality mentoring and coaching;
- Provide NQTs with examples of good classroom practice;
- Help NQTs form productive relationships with all members of the school community and stakeholders;
- Support NQTs to become reflective practitioners;
- Provide opportunities to recognise and celebrate success;
- Act quickly to help NQTs address any areas of concern;
- provide a foundation for longer-term professional development;
- Ensure a smooth transition from teacher training, to help NQTs meet all the Teachers' Standards.

All colleagues will be kept informed of the school's NQT Induction Policy and encouraged to participate, wherever possible, in its implementation and development. This policy reflects a structured whole school approach to teacher induction and recognises that the quality and commitment of the people who supervise and deliver the induction is a crucial factor in its continued success.

2 Roles and responsibilities

The school carries out its responsibilities in line with of the [Statutory Guidance](#). See Appendix 1 for an overview of roles and responsibilities.

3 Support

Our induction programme ensures that new teachers are provided with the support and monitoring to help them fulfil their professional duties and meet the requirements for satisfactory completion of Induction. It builds on their knowledge, skills and achievements in relation to the Teachers' Standards as achieved during training.

The NQT Handbook is provided on FROG to the NQT at the start of induction. The Headteacher and Tutors will have read their version of the NQT Guidance from the provider.

The key aspects of the Induction programme for NQTs at Noadswood are as follows.

Access to a high quality and personalised induction programme.

At an early stage, time with the NQT's Induction Tutor to discuss developments needed and how they will be assisted in making these.

Help and guidance from an Induction tutor who holds qualified teacher status, is adequately prepared for the role and who will coordinate the induction programme.

Regular meetings with a mentor and, as needed, meetings with subject coordinators, SENDCo, DSL, the Headteacher etc.

A programme of observations of experienced colleagues' teaching.

A reduction of 10% of the average teacher's workload (in addition to PPA time). This NQT time is used for participating in the school's Induction programme, other professional development activities and meetings with the mentor.

Regular observation of the NQT's teaching by experienced colleagues (at least once every half term).

Prompt written as well as oral feedback on teaching observed, with successes, targets and feedback/advice provided.

Confronting of any areas of practice or behaviour that may prevent the NQT meeting the Teachers' Standards in a timely, honest and professional manner.

Opportunities for further professional development based on agreed targets and identified needs.

Detailed success criteria for any areas identified as making an NQT at risk of not meeting the Teachers' Standards.

In addition to the above, NQTs are encouraged to develop and access professional networks to support them, including those available via their professional association.

4 Assessment and Quality Assurance

The assessment of NQTs will be rigorous and objective.

- The criteria used for formal assessments will be shared and agreed in advance.

- Both formative assessment (e.g. lesson observation and target setting) and summative assessment (termly Induction reports) will be used.
- Assessment will draw on views from all staff who have a part in the NQT's development in order to gain a reliable and thorough overall view.
- Assessment will draw on evidence from planning, pupils' work and the progress they make, relationships with staff, pupils and parents, as well as formal observations of teaching.
- The Induction Co-ordinator will ensure that assessment procedures are consistently applied and validated by the Headteacher.
- Copies of any records will be passed to the NQT concerned.
- Termly reports will give details of:
 - areas of strength
 - areas requiring development
 - evidence used to inform judgement
 - targets for coming term
 - support to be provided by the school

5 At risk procedures

If any NQT encounters difficulties with meeting the Teachers' Standards, the following procedures will be put into place:

The Tutor will use the 'Unsatisfactory Progress or Concerns' guidance to structure the support available to the NQT, put in place a formal Action Plan and write to the NQT to outline the concerns when appropriate.

- An expectation will be established that the support provided will enable any weaknesses to be addressed.
- A record of the exact nature of the problem and advice given on how to address this and the support available will be provided.
- Agreed, attainable targets for action will be set within an agreed timescale, with specific and practical steps outlined for securing an improvement in practice.
- Experienced colleagues will model aspects of good practice so that the NQT can focus attention on particular areas of teaching through observation.
- Early warning of the risk of failure to meet one or more of the Teachers' Standards will be given to the NQT. The named Appropriate Body contact will be informed as soon as it becomes clear an NQT is at risk of not meeting one or more of the Teachers' Standards.

Addressing NQT concerns

If an NQT has any concerns about the induction, mentoring and support programme, these should be raised within the school (Tutor, Co-ordinator or Headteacher) in the first instance. Where the school does not resolve them the NQT should raise concerns with the named Appropriate Body contact.

NQTs are also encouraged to contact their Professional Association for advice and support where any concerns about progress have been raised, or where they have any concerns about the support provided by the school.
