

Assessment 2021 – Subject Specifics

The document below shows when your **main assessment** pieces will be conducted **in class** for the specific subjects you are studying. This is not a bespoke timetable to you but does show you the subject and classes where assessment occurs. **You will go to your normal lessons, at their normal times, and each assessment will be completed within that lesson time.**

Some subjects will not show specific extra assessment windows – this is because these will be portfolio (coursework) based with the majority of the assessment already being completed.

We've produced a companion website to this timetable with extra guidance and video explanations ([click link](#))
