THE NOADSWOOD CURRICULUM

Our curriculum is one of entitlement where every student is provided with opportunities to grapple with 'the best that has been thought and said' so that they learn to appreciate the best in human creativity and achievement.

We encourage young people to question what they learn so as to enhance deeper understanding and a desire for further learning.

We expect our students to be **Ready** to engage with their learning, **Respectful** of all those around them and to approach their participation in school in a **Safe** manner.
